**PETITION UNDER 37 C.F.R. §1.10(c) TO CORRECT FILING DATE**

Dear Sir/Madam:

The official filing receipt for the above-mentioned application (copy enclosed) bears an incorrect application filing date of December 22, 2001. The application was deposited with the United States Postal Service using the Express Mail Post Office to Addressee service as specified under 37 C.F.R. §1.10 on December 20, 2001, and is therefore entitled to a filing date of December 20, 2001. A copy of the Express Mailing label (Label No. EK051318535US) and a printout of the corresponding tracking information from the U.S. Postal Service website are enclosed. Copies of the Certificate of Express Mailing and the Utility Patent Application Transmittal sheet, both bearing Express Mailing Label No. EK051318535US, and dated December 20, 2001, are also enclosed.

As can be seen from the copy of the Express Mailing label, the "date in" is unclear. While at first glance the "date in" appears to read December 22, 2002, closer examination reveals that the second digit of the "day" in the "date in" may be read as either a two, or as a zero with a stray mark drawn horizontally through it. It is therefore uncertain from the Express Mailing label alone whether the correct "date in" is December 20, 2002, or December 22, 2002. The tracking information from the U. S. Postal Service website for Express Mailing Label No. EK051318535US clearly shows that the package was accepted by

the Postal Service on the date of deposit, December 20, 2001. Accordingly, applicants respectfully request the application be accorded the correct filing date of December 20, 2001.

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
